Projects

Personal Portfolio Website

- Built a responsive personal portfolio using HTML5 and CSS3.
- Implemented responsive layouts for desktop, tablet, and mobile devices.
- Organized sections including About, Skills, Projects, and Contact.

Practice Websites

- Developed multiple responsive landing pages using HTML5 and CSS3.
- Applied Flexbox and CSS Grid for modern layouts.
- Currently enhancing projects with JavaScript.

Objective

- Seeking a Front-End Developer Internship where I can apply my HTML and CSS skills, gain real-world experience, continue learning JavaScript, and contribute to building responsive, user-friendly web applications while growing into a Full-Stack Web Developer.
